Webpage Design

BRONZE Challenge:

You will be creating a webpage to help others create your vehicle design.

To start with, create the below using HTML:

- A heading for the webpage

- A section introducing your design – including at least one image of the design

SILVER Challenge:

Style these sections using CSS and create a grid for your content.

Notes:

- *You will need to add a new file called style.css to Trinket*
- *Watch the beginners video on CSS (https://youtu.be/nC56H_DuAT8) as a reminder*
- *Remember https://w3schools.com is a great place to get new ideas and to test different styles.*

GOLD Challenge:

Create a new section containing a component list for people to create your design.

Here are two options for HTML of lists – try these out to see the difference:

```
<ol>
   <li>item 1</li>
   <li>item 2</li>
</ol>
```

```
<ul>
   <li>item 1</li>
   <li>item 2</li>
</ul>
```

Extension Challenge:

Create a wiring diagram for your design in a Tinkercad circuit file to include on your webpage.

Thanks!
