Investigating

Self-driving vehicles

Research exercise

Search for information on:
- *Companies developing self-driving vehicles*
- *What types of sensors are used*
- *How data from those sensors is processed/used*
- *Safety statistics related to self-driving vehicles, e.g. how many miles travelled without an accident*

Web page report

- *Give an introduction to what self-driving vehicles are*
- *Present the information from your research with relevant headings*
- *Pros and cons of self-driving vehicles*
- *Ensure you include links to the sources of information (this should be more than just wikipedia)*

Web page styling

- *Add CSS to your web page to customise how it is displayed*
- *Add images to accompany the text, with links to sources*
